IMPORTANT PILOT INFORMATION

Planning your arrival to Scottsdale Airport is as easy as 1, 2, 3...

1. Call your FBO to notify them of your intended arrival.
2. International arrivals or aircraft with international passengers must call U.S. Customs 48 hours prior to arrival at (480) 312-8483.
3. Contact Scottsdale Airport for any additional information at (480) 312-8478.

If you are picking up passengers...

- Check with your FBO on their procedures for that day.

On the day of the Super Bowl...

- Expect extra security measures to be in place. As a result, allow extra time for getting to and from your aircraft.
- Due to traffic from other nearby events, please check with your FBO on preferred driving routes. There are several ground transportation options available. Contact your FBO for more information.

While you are waiting for passengers...

- There are several area attractions near the airport and just a short drive away. Please see the map on the opposite page for some ideas of what to do.
- Check with your FBO on what activities they have planned for Super Bowl day.

When you are ready to meet up with your passengers...

- Prearrange to meet your passengers at one of these three locations:
 1. Airport Terminal Building
 2. Air Center Scottsdale (FBO)
 3. Landmark Aviation (FBO)

Helicopter Pilots...

- Contact either FBO in advance of arrival to arrange a landing location.
- A Helicopter Pilot Guide is available on the airport's Web site (www.scottsdaleairport.com) or by calling Airport Operations at (480) 312-8478.

Greetings

from Scottsdale Airport! We are located 9 miles north of Scottsdale's downtown area and in close proximity to a wide range of world-class resorts, hotels, restaurants, and golf courses. Scottsdale Airport is an ideal choice for vacationers and business travelers. With an average median temperature of 70 degrees and an average of 360 VFR days a year, Scottsdale provides the country's best year-around flying conditions.

January and February are traditionally a busy time for Scottsdale Airport with several special events occurring in and around the city. In 2008, in addition to the regularly-scheduled events, Super Bowl XLII will visit our area, which will create an increased demand at the airport. This guide is designed to help get you in and out of Scottsdale Airport with the greatest of ease.

So welcome! We hope you enjoy visiting us!

Noise Abatement Procedures

Scottsdale Airport realizes that safety is the primary goal when operating your aircraft. The airport also reminds you to be a good neighbor. The following Noise Abatement Procedures are designed to help maintain a peaceful environment for our neighbors.

- Safety always comes first.
- Left-hand traffic on Runway 03. Right-hand traffic on Runway 21.
- Voluntary noise curfew 2200 - 0600 MST.
- Intersection takeoffs, stop-and-gos, formation, and simulated single-engine departures or go arounds are prohibited.
- Touch-and-go operations are prohibited between 2130 and 0600 MST.
- Engine maintenance runups are permitted only at the blast fence located at the north end of the Kilo Ramp (adjacent to Runway 21). Prohibited between 2200 and 0700 MST, except for emergencies.
- Runway weight restriction is 75,000 lbs maximum certified takeoff weight. This may be waived; For details, contact Airport Operations 48 hours in advance at (480) 312-8478.
- Make right turn to 300 degrees when departing Runway 21.
- Follow the 4 degree PAPI.
- Request that aircraft not meeting FAR Part 36, Stage III requirements take off on Runway 03 and land on Runway 21, weather and traffic permitting.
- Use NBAA Standard Noise Abatement Departures procedures or comparable procedures of aircraft manufacturer.
- Follow AOPA Noise Awareness Steps.
- Climb as high as possible before leaving airport boundaries.
- Avoid direct overflight of residential areas when possible.
